Annotation

The project is finished by Yin Yang. In the repo, there are two HTML page. One is named index.html that is the Product page, which can show the command of lightbox. The other one is called index1.html that is the Home page, which is used the Click command for the hot spot. The two pages are connect on the HTML.

Thank you.

The contributor is Ying Yang. The folders and the files can be annotated as follow.

1. Assets-it contains a empty text file;
